

ANGELINA

[LinkedIn](#) – [GitHub](#) – angelinaworks7@gmail.com – +91-9458862477

Research Interests

Machine Learning, Deep Learning, Natural Language Processing, Information Retrieval, Optimization, Signal Processing-inspired ML Systems

Education

KIET Group of Institutions, Ghaziabad

2024–2028

B.Tech, Computer Science & Engineering (Artificial Intelligence)

CGPA: 7.0/10 – Class XII: 70% (2024) – Class X: 90.2% (2022)

Research Experience (Project-Based)

Semantic Similarity for Plagiarism Detection using FAISS and Transformers – [Live](#) – [GitHub](#)

- Designed a semantic similarity pipeline using Sentence Transformers and FAISS for vector search.
- Implemented chunk-based similarity scoring to reduce false positives and improve alignment.
- Compared DistilBERT vs Sentence-BERT embedding strategies for performance vs. accuracy trade-offs.
- Optimized FastAPI backend for low latency; explored FAISS indexing and similarity thresholds.

Real-Time Crisis Response System (Distributed AI-enabled Platform) – [Live](#) – [GitHub](#)

- Built a distributed real-time system using WebSockets (Pusher) for live dynamic updates.
- Designed multi-channel alerting with GPS, Twilio, email, and push notifications via scalable architecture.

Mental Wellness Platform (User-Centric System Design) – [Live](#) – [GitHub](#)

- Developed modular React and Tailwind CSS frontend; optimized performance, accessibility, and UI design.

Research Work (In Progress)

Title: Semantic Similarity-based Plagiarism Detection using Transformer Embeddings

- Investigating transformer embeddings for semantic plagiarism detection; comparing DistilBERT vs Sentence-BERT.
- Exploring FAISS indexing for scalable retrieval; preparing a technical report on methodology and results.

Technical Skills

Languages: Python, C, C++, Java, JavaScript, TypeScript, SQL

AI / ML: Sentence Transformers, FAISS, DistilBERT, DistilBART, KeyBERT, Semantic Similarity

Full Stack: Next.js, React, Node.js, Express.js, FastAPI, REST APIs

Databases & Tools: PostgreSQL, Prisma ORM, Redis, Docker, Railway, Vercel

Core Concepts: ML, Deep Learning, DSA, OOP, Authentication (JWT, OAuth, NextAuth), System Design

Certifications

- AWS Certified Cloud Practitioner – [View Certificate](#)
- Artificial Intelligence Foundation (LinkedIn Learning) – [View Certificate](#)
- Machine Learning Certification (Springboard) – [View Certificate](#)
- Introduction to Artificial Intelligence (Coursera) – [View Certificate](#)

Leadership & Activities

- Vice President, Debate Club – Organized inter-school debates and mentored junior speakers.
- Hackathon Team Lead – Led teams in multiple AI-focused hackathons and workshops.
- Member, KIET Model United Nations & Odyssey Club – Engaged in policy simulations and campus initiatives.
